ES IMPORTANTE. GUARDAR PARA CONSULTAS FUTURAS. LEER DETENIDAMENTE.

-El producto debe colocarse en un suelo horizontal.

-No se debe permitir que los niños pequeños jueguen sin supervisión cerca de la cuna.

-Todos los accesorios de ensamblaje siempre deben estar apretados adecuadamente y se debe tener cuidado de que no haya tornillos sueltos, porque un niño podría atrapar partes del cuerpo o la ropa (por ejemplo, cuerdas, collares, cintas para muñecos para bebés, etc.) lo que supondría un riesgo de estrangulamiento. Revisar este paso de forma periódica.

-Tener en cuenta el riesgo de quemaduras al tener cerca de la cuna cigarrillos, fuegos abiertos y otras fuentes de calor intenso, como estufas eléctricas, estufa de gas, etc.

-Limpiar la cuna con un paño seco sin productos corrosivos.

-No utilizar la cuna si cualquiera de sus componentes falta, esta dañado o está roto. Póngase en contacto con MICUNA SLU para obtener piezas de repuesto y documentos de instrucciones si es necesario. NO sustituya partes.

- Las instrucciones se pueden consultar en la web (www.MICUNA.com)

¡ADVERTENCIA!

-Solo se debe fijar la cuna de colecho con el sistema fijación que lleva y no se deberá utilizar otro sistema de fijación.

-La cuna de colecho nunca debe usarse en una posición inclinada.

-Para evitar cualquier riesgo de asfixia por atrapamiento, la cuna de colecho debe unirse correctamente a la cama del adulto mediante el sistema de fijación.

-Nunca debe haber un espacio entre el lateral abierto de la cuna colecho y el colchón de la cama para adultos.

-Comprobar el ajuste del sistema de fijación antes de cada uso, empujando la cuna hacia afuera de la cama del adulto.

-Si hay cualquier hueco entre la cuna de colecho y la cama del adulto, NO utilizar el producto.

-Los huecos no deberían llenarse con almohadas, mantas y otros productos.

- No utilice este producto sin antes leer las instrucciones de uso.

- No sitúe el producto cerca de otros productos que puedan suponer riesgo de asfixia o de estrangulamiento, por ejemplo, cuerdas, cordones de cortinas o persianas, etc.

-La cuna colecho, cuando no está unido a la cama del adulto, debe tener todos sus lados colocados y/o en su posición más alta.

EN IMPORTANT TO KEEP FOR FUTURE REFERENCE. READ CAREFULLY

-The product should be placed on a horizontal floor.

-Young children should not be allowed to play unsupervised near the crib.

-All assembly hardware must always be properly tightened and care must be taken that there are no loose screws, because a child could catch parts of the body or clothing (for example, strings, necklaces, baby doll headbands, etc.).) posing a strangulation hazard. Review this step periodically.

-Take into account the risk of burns when having cigarettes, fires near the crib open doors and other sources of intense heat, such as electric stoves, gas stoves, etc.

-Clean the cradle with a dry cloth without corrosive products.

-Do not use the crib if any of its components is missing, damaged or broken. Contact MICUNA SLU for spare parts and instruction documents if necessary. DO NOT substitute parts.

- The instructions can be consulted on the web (www.MICUNA.com)

WARNING!

-The co-sleeping cradle should only be fixed with the fixing system that it has and no other fixing system should be used.

-The co-sleeping crib should never be used in an inclined position.

-To avoid any risk of suffocation due to entrapment, the co-sleeping crib must be correctly attached to the adult's bed using the fixing system.

-There should never be a gap between the open side of the co-sleeping crib and the mattress of the adult bed.

-Check the adjustment of the fixing system before each use, pushing the cot out of the adult's bed.

-If there is any gap between the co-sleeping crib and the adult's bed, DO NOT use the product.

-The gaps should not be filled with pillows, blankets and other products.

- Do not use this product without first reading the instructions for use.

- Do not place the product near other products that may pose a risk of suffocation or strangulation, for example, ropes, curtain or blind cords, etc.

-The co-sleeping crib, when it is not attached to the adult's bed, must have all its sides placed and/or in their highest position.
